

# Dranjer™ Instruction Sheet

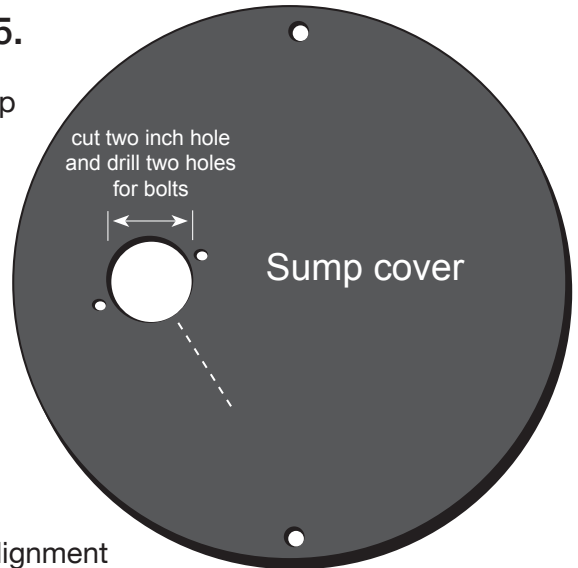

## JS15 SUMP VALVE

Thank you for your purchase of the Dranjer™ JS15.

This product is designed to fit into and become part of your sump cover. It is a one-way valve that allows water to flow into the sump but prevents Radon Gas, soil gas, insects and odours from entering your living environment.

To install the JS15:

1. With a 2-inch hole saw cut a hole into the sump cover
2. Place the JS15 on the bottom of the sump cover and mark the location for the screws
3. Drill two 3/16" holes in the sump cover.
4. Place a bead of silicon caulking on the upper surface of the JS15.
5. Fit the JS15 to the bottom of the sump cover using the alignment collar, which protrudes around the top of the JS15.

Mark and drill two 3/16" holes into sump cover, caulk and secure valve with nuts and bolts provided
